

EffortLess

in a nutshell

Deposits **everything the Vault will take** from your bags, then **logs you out** - in one click.

Use it

- Click the **bag icon** on your minimap, or type **/el**.
- Say **Yes** to the prompt. Done - items banked, logging out.
- In a hurry? **/el now** skips the prompt.

Good to know

- Works **anywhere** - no bank or vault window needed.
 - Quest, soulbound and kept items **stay** in your bags (the server's rule, not a bug).
 - The logout timer is the server's; instant when resting.
 - Nothing is lost - withdraw from the Vault any time, log back in any time.
